

Aisle Ahead

106A W. SUMMIT HILL DRIVE - KNOXVILLE, TN 37902 - 865.524.8888

Front-end Developer

Aisle Ahead (<https://aisleahead.com>) is a US company that connects millions of shoppers with grocers, from decision through checkout and beyond through an end-to-end digital commerce platform. Our branch in Greece is looking for highly motivated Front-end Developers with a range of experience (Junior, Mid-level and Senior) to help in our web development. The primary focus will be to implement a complete user interface in the form of a desktop web app, with a focus on performance. The main duties will include creating modules and components and coupling them together into a functional app. They will work closely with experienced product owners, software engineers and QA engineers to ensure sprint goals are met and that the shipped product is of high quality. They will work in a team with the back-end developer, and communicate with the API using standard methods. A thorough understanding of all of the components of our platform and infrastructure is required.

Friendly, collaborative and social team environment.

ESSENTIAL EXPERIENCE / REQUIREMENTS:

- Thorough understanding of the responsibilities of the platform, database, API, caching layer, proxies, and other web services used in the system

- Validating user actions on the client side and providing responsive feedback

- Writing non-blocking code, and resorting to advanced techniques such as multi-threading, when needed

- Creating custom, general use modules and components.

- Very good experience with JavaScript/JQuery, HTML5, SCSS/CSS3, Node.js

- In-depth understanding of the entire web development process covering architectures, design patterns, for responsive applications

- Strong testing, debugging skills of web apps for performance and cross-browser compatibility

- Creating self-contained, reusable, and testable modules and components

- Ability to solve problems creatively and effectively by engaging with all stakeholders

Aisle Ahead

106A W. SUMMIT HILL DRIVE - KNOXVILLE, TN 37902 - 865.524.8888

Strong communication skills Desired:
Experience with Unit Test frameworks

DESIRABLE EXPERIENCE:

- Degree in Computer Science or relevant experience commensurate to a bachelor's
- Angular
- Typescript
- SASS
- Familiar with GIT or have a Github/Bitbucket account where you publish libraries, open-source apps or contribute to other projects

RESPONSIBILITIES:

Delivering complete high-performance front-end applications
Writing tested, idiomatic, and documented JavaScript, HTML and CSS

Dynamically adapt to changes/suggestions made to Front-end UI

Communicating with external web services

Understand and apply industry best practices, foster knowledge sharing to provide solutions for complex business problems where no precedent may exist, and ensure implementation of solutions where appropriate.

Mentor and develop more junior Mobile engineers, providing clear and constructive feedback and creating opportunities for learning and growth.
